To whom it may concern,

The Great Kaplan was an amazing show! We couldn't be happier with the results! People are still laughing about the humorous antics of David Kaplan and wondering how he did all those zany tricks. The bowling ball floating up to the ceiling and then crashing down onto the stage was quite a hit!

We sold out two performances. The show attracted everyone from young kids to college students to the older crowd. Everyone had a great time and many people have requested that we bring him back again next year. It was the perfect show for all ages!

This is a high class show that did not cost all that much to present. It is perfect for small to medium-sized venues. David Kaplan is extremely good to work with and the show is fairly simple to set up. I highly recommend it to other presenters who are looking for something fun and different. It's a real crowd pleaser!

Sincerely,

Don Sparhawk
