### Tech Requirements

The quintet will need five straight backed chairs without arms and five music stands. In all indoor venues we will need only one speaking microphone  
In out door venues five instrumental mics plus one speaking mic.  
Light should be very bright and centered on the ensemble.

Backstage in the green room or dressing room area the quintet would like to have bottled water , coffee and fruit available before the concert and during Intermission.

The Quintet will usually bring CDs for sale and request the house have someone available to set up and man the display.

Presenters are asked to provide five single non– smoking rooms at four star accommodations during the quintet's stay.

Thank you
